Congrats Robotics Team!

Tuesday April 2, 2024

Over the Easter weekend, the Banting Robotics team traveled to McMaster University for their district event against some of the best teams in the world. The team battled hard the entire time, upsetting some big teams and demonstrating great teamwork and grit. Going into the playoffs, the team earned an alliance captain spot and had to go up against the number one team holding them to a low score, but did not overcome them. The team did well enough to make a spot in the Regional Event this week. Most importantly, the robotics team won a very prestigious award. Banting came home with the "Engineering Inspiration" Award. Only given out to 1 team per event, and only 7 in total were given out this year in Ontario. This is "The" award to win and was based on the teams engineering from the Hockey goalie, dancing robot, a Venus fly trap, prosthetic chicken leg, custom swerve drive, as well as the chains through the hockey stick design of the current robot. Congratulations to the entire team for all their dedication and hard work. Good luck at Provincials!
